Distinguished features of Constitution of India

As said by Ambedkar Indian Constitution is a product of ransacking all the constitutions present that time. Still it is unique in its content and spirit.

Salient features of the constitution:

1) Longest Constitution = Factors like geographical, historical, dominance of legal luminaries and a single constitution for the center and state made the constitution bulk.

Even the original version itself had a preamble, 395 articles and 8 schedules.

2) Various sources = As said the drafting committee referred almost all the constitutions and used them which were suitable for us.

Structural part - Government of India Act, 1935

Philosophical part - Fundamental rights from USA

DPSP from Ireland

Political part - largely from Britain

3) Blend of rigidity and flexibility = Unlike too rigid of the US constitution and too flexible of the British, ours is a synthesis of both.

Some parts are flexible, which can be amended like an ordinary law & some are rigid which requires a special procedure to amend - Art. 368.

4) Federal system Unitary bias = Our constitution has been praised as "bargaining federalism", "co-operative federalism", "quasi-federal", by various experts because of its nature.
