Respected Sir/Mam,

Sub: Requesting online class access and offline weekly test access - reg

After requesting you for online access in July, I have been attending all the classes only online. It was very helpful for me and I only attended the exams in offline mode. Being a fresher in Group Exams, filling out the OMR sheet was good practice for me, and attending the offline exams helped me a lot to gain confidence. Even now, I'm unable to attend offline classes due to my four-year-old kid, I'm managing him without anyone's support in the family. But somehow, I managed to attend most of the offline exams and missed a few because of the same situation. I never missed any online classes, and to the best of my knowledge, I have also been effectively taking all the notes. Last week, I couldn't attend any classes as there was no access to the online sessions. As important topics are being taken now, I humbly request you to revoke the online class access. I can understand that from the administration side, it would be difficult to switch between online classes and offline exams for me but please consider my situation and try to do the needful. This help will be really useful for my future exam preparations.
